

REAL TIMBER VENEER, FINISHED AND READY TO USE

iWood creates premium, ready-to-install timber veneer panels for cabinetry, joinery and wall panelling. Combining craftsmanship, consistency and simplicity, iWood offers the warmth of real wood in a refined, modern form.

Unlike unfinished veneer sheets or synthetic laminates, iWood panels are fully finished, sealed and ready to use — offering both beauty and practicality.

BLACKBUTT (NATURAL FEATURE GRADE)

SPOTTED GUM

TASMANIAN OAK

CARPENTRY PANEL

The iWood pre-finished decor range celebrates the beauty of natural timber veneer, showcasing a distinctive Crown-Quarter Cut Random Mis-Matched design that brings warmth and authenticity to every space.

Perfect for commercial, retail, hospitality, and residential applications, this collection is crafted for both elegance and durability. Each panel features six layers of nano coated matte-finish, ultra-low VOC acrylic polyurethane UV-cured varnish, applied using a refined rolling technique with intermediate curing. This process enhances the natural texture of the wood while delivering a luxurious, tactile surface.

The result is a finish that not only looks exquisite but offers exceptional scratch resistance, protecting against micro-abrasions without compromising the depth, tone, or character of the veneer.

SPECIFICATIONS

FOSB 2745 x 1220 x 19mm

MR MDF 3050 x 1220 x 19mm

Wire Brushed

<=5% Matte

Acrylic Polyurethane Finish

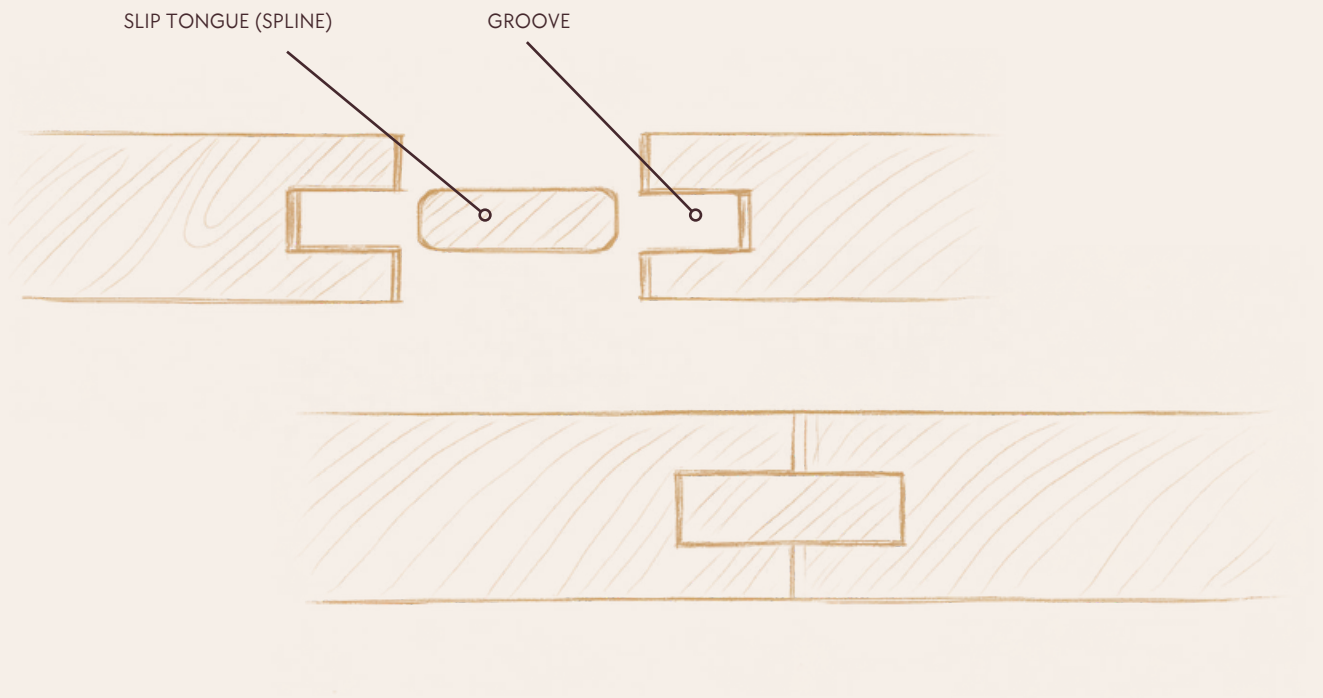

WALL PANEL

The iWood Wall Panel range highlights real timber veneer with a Crown-Quarter Cut Random Mis-Matched design that adds depth and character.

Each panel is pre-finished, edge-banded, and sealed on all four sides for durability and a clean finish. The precision tongue and groove system delivers seamless joins and easy installation.

Designed for indoor use, these panels bring warmth, texture, and sophistication to residential, retail, commercial, and hospitality spaces.

SPECIFICATIONS

Plywood 2780 x 300/600/900 x 15mm

Single Face

Wire Brushed

<=5% Matte

Acrylic Polyurethane Finish

AMERICAN WHITE OAK (NATURAL)

Subtle cathedral grain, straw tones,
light and versatile.

Substrate options: Plywood / MDF / FOSB

Sheet size: 2745x1220 mm

Finish: <=5% matte lacquer

Recommended uses: cabinetry, wall panelling, joinery, furniture.

AMERICAN WHITE OAK (DARK)

Deep, elegant stain for contrast and modern interiors.

Substrate options: Plywood / MDF / FOSB

Sheet size: 2745x1220 mm

Finish: <=5% matte lacquer

Recommended uses: cabinetry, wall panelling, joinery, furniture.

AMERICAN WALNUT

Rich chocolate tone, flowing grain,
premium feel.

Substrate options: Plywood / MDF / FOSB

Sheet size: 2745x1220 mm

Finish: <=5% matte lacquer

Recommended uses: cabinetry, wall panelling, joinery, furniture.

BLACKWOOD

Golden warmth with dark streaks,
character and depth.

Substrate options: Plywood / MDF / FOSB

Sheet size: 2745x1220 mm

Finish: <=5% matte lacquer

Recommended uses: cabinetry, wall panelling, joinery, furniture.

BLACKBUTT (NATURAL FEATURE GRADE)

Pale honey colour, straight grain,
refined but robust.

Substrate options: Plywood / MDF / FOSB

Sheet size: 2745x1220 mm

Finish: <=5% matte lacquer

Recommended uses: cabinetry, wall panelling, joinery, furniture.

SPOTTED GUM

Earthy greys and browns, distinct figure, strong Australian character.

Substrate options: Plywood / MDF / FOSB

Sheet size: 2745x1220 mm

Finish: <=5% matte lacquer

Recommended uses: cabinetry, wall panelling, joinery, furniture.

TASMANIAN OAK

Clean, light tone, soft consistency,
timeless and adaptable.

Substrate options: Plywood / MDF / FOSB

Sheet size: 2745x1220 mm

Finish: <=5% matte lacquer

Recommended uses: cabinetry, wall panelling, joinery, furniture.

MATERIALS & SUBSTRATES

iWood panels use next-generation Fine OSB (FOSB) and MDF cores for strength, stability and a smooth surface. All veneers are pre-finished with a durable matt lacquer, reducing installation time and ensuring a perfect finish straight from the sheet.

- Real timber veneer, not imitation
- Fully finished and sealed
- Ready to install
no sanding, staining or coating required.

From kitchens and wardrobes to retail fit-outs and feature walls, iWood panels bring warmth and texture to every environment.

From floor to ceiling, iWood panels elevate every surface.

Backed by the team behind
Sunstar Flooring, iWood combines years
of material expertise with a modern,
design-led approach.
